Article 6-1. Education management bodies of the region, city of republican significance, capital, district (city of regional significance)

1. Education management bodies of a region, city of republican significance, capital, district (city of regional significance) exercise the functions of local government in the field of education in the relevant territory within the limits of competence determined by this Law and other legislation of the Republic of Kazakhstan.

2. Regional education authorities appoint and dismiss the first heads of education authorities of districts (cities of regional significance).

Article 7. Digital support for educational system management bodies

1. InIn order to provide the governing bodies of the education system with complete, reliable, and comparable information in a timely manner, the Republic of Kazakhstan is creatingdigital objectsin the field of education, ensuring the possibility of effective management of education.

2. Digital objects in the field of education include, among other things, registers of educational programs implemented by technical and vocational, post-secondary, higher and (or) postgraduate education organizations, educational monitoring data, administrative data and other data obtained by the authorized body in the field of education and the authorized body in the field of science and higher education, local executive bodies, and educational organizations in the course of carrying out their activities.

The authorized body in the field of education and the authorized body in the field of science and higher education are obliged to ensure free access of citizens to data of digital objects in accordance withdigital legislationRepublic of Kazakhstan andlegislationRepublic of Kazakhstan on personal data and their protection.

3. The digital system "National Educational Database" is designed to collect, process, and analyze administrative and other data in the field of education, as well as to ensure information interaction with other digital objects.

4. Collection, processing and protection of personal data contained in digital objects in the field of education is carried out in accordance withlegislationRepublic of Kazakhstan on personal data and their protection.

Article 8. State guarantees in the field of education

1. The right to education is ensured by the state through the development of the education system, improvement of the legal basis for its functioning and creation of the necessary socio-economic conditions for obtaining education in accordance withConstitutionRepublic of Kazakhstan.

State control over the quality of education is ensured by creating and ensuring the functioning of a national system for assessing the quality of education.

1-1. The state creates conditions for individuals (children) with special educational needs for their self-improvement, continued education throughout their lives at all levels of education, and the free development of their abilities, including the right to choose the form of education within the limits provided by the education system, taking into account their individual developmental characteristics.

2. The state ensures that citizens of the Republic of Kazakhstan receive free pre-school, primary, basic secondary, general secondary, technical and vocational education, with graduates awardedworking qualifications or working qualifications within one specialty, as well as on a competitive basis in accordance with the state educational order for free technical and vocational, post-secondary, higher and postgraduate education, if a citizen of the Republic of Kazakhstan receives education at each of these levels for the first time, with the exception of education received in military, special educational institutions and educational organizations under the President of the Republic of Kazakhstan.

Foreigners and stateless persons permanently residing in the Republic of Kazakhstan, as well as those who entered the Republic of Kazakhstan for the purpose of family reunification, have equal rights with citizens of the Republic of Kazakhstan to receive pre-school, primary, basic secondary and general secondary education inin order, established by the authorized body in the field of education.

Stateless persons permanently residing in the Republic of Kazakhstan are granted the right to receive, on a competitive basis in accordance with the state educational order, free technical and vocational, post-secondary, higher and postgraduate education, if they are receiving education at each of these levels for the first time, with the exception of military and special educational institutions.

The right of foreigners to receive, on a competitive basis in accordance with the state educational order, free technical and vocational, post-secondary, higher and postgraduate education is determined by international treaties of the Republic of Kazakhstan, with the exception of persons studying underscholarship programs.

2-1. The state ensures the conditions for the creation of a digital infrastructure for e-learning usingdigital technologies.

2-2. The state shall create conditions for providing students, master's students, and doctoral students with newly created places in dormitories for students, master's students, and doctoral students by placing a state order for the provision of dormitory places for students, master's students, and doctoral students. The cost of dormitory accommodation is not included in thestate orderto provide students, master's students and doctoral students with places in dormitories, with the exception of cases where the state subsidizes accommodation costs as part of a state order to provide students, master's students, and doctoral students with places in dormitories.

The state procurement agreement for providing students, master's students and doctoral students with places in dormitories is concluded betweenoperator of the authorized bodyin the field of education and the dormitory owner. A mandatory condition of the state procurement agreement for providing dormitory space for students, master's students, and doctoral students is a prohibition on changing the dormitory's intended purpose for a period of at least twenty years.

3. In order to ensure accessibility to technical and vocational, post-secondary, higher and postgraduate education, conditions are created for the development of the State Educational Accumulation System and non-state educational lending.

The state is taking measures to create a system of guaranteeing educational loans issued by financial institutions.

4. The state shall fully or partially compensate the costs of maintaining citizens of the Republic of Kazakhstan in need of social assistance during the period of their education.

The following categories of citizens of the Republic of Kazakhstan are eligible for social assistance:

1) orphans, children left without parental care;

2) children with developmental disabilities, children with disabilities, persons with disabilities and persons with disabilities from childhood;

3) children from large families;

4) children located in juvenile adaptation centers and child support centers,in need of special social services;

5) children living in general and sanatorium-type boarding schools, and boarding schools at schools;

6) children raised and educated in specialized boarding educational organizations for gifted children or with in-depth pre-conscription training;

7) pupils of boarding schools;

8) children from families entitled to receive state targeted social assistance, as well as from families not receiving state targeted social assistance, in which the average per capita income is below the subsistence minimum;

9) children who, due to health reasons, are studying for a long time under programs of primary, basic secondary, general secondary education at home or in organizations providing inpatient care, as well as restorative treatment and medical rehabilitation;

10) other categories of citizens determined by the laws of the Republic of Kazakhstan;

11) other categories of citizens determined by decision of the Government of the Republic of Kazakhstan.

4-1. The state fully or partially compensates the costs of meals for certain categories of students inin order, provided for by the legislation of the Republic of Kazakhstan.

5. For citizens whofor health reasonsFor those who are unable to attend secondary education institutions for a long period of time, individual free education is organized at home or in institutions providing inpatient care, as well as restorative treatment and medical rehabilitation.

6. The state, realizing the goalsinclusive education, provides citizens with developmental disabilities with special conditions for obtaining education, correction of developmental disorders and social adaptation at all levels of education.

7. The state guarantees the functioningsmall-scale schoolsand boarding schools to ensure the right to receive primary, basic secondary, and general secondary education for children living in populated areas with small populations.

8. The state creates the necessary conditions for gifted citizens of the Republic of Kazakhstan to receive an elite education, including abroad.

Article 8-1. Minimum social standards in the field of education

Minimum social standards for pre-school education and training, primary, basic secondary and general secondary education, technical and vocational, post-secondary education, higher education obtained on a competitive basis are minimum social standards in the field of education in accordance withBy lawRepublic of Kazakhstan "On minimum social standards and their guarantees."

Article 8-2. State monopoly in the field of education

Activities to organize the examination of textbooks, educational and methodological complexes at different levels of education, as well as methodological and scientific-methodological support for the education system and the educational process, including for children with disabilities, is a state monopoly.

Pricesfor the goods (works, services) specified in the first part of this article, produced and sold by the subject of the state monopoly in the field of education, are determined by the authorized body in the field of education in agreement with the antimonopoly body.

Article 8-3. Staffing levels and staffing schedule of employees of state preschool organizations, secondary, technical and vocational, and post-secondary education organizations

The staffing level of state pre-school organizations, secondary, technical and vocational, and post-secondary education organizations is determinedtypical statesemployees of state educational organizations.

The first heads of state preschool organizations, secondary, technical and vocational, and post-secondary education organizations approve the staffing levels and staffing schedules.

Within the approved staffing limit, senior managers have the right to change the staffing level and staffing schedule of managerial, administrative and support personnel, but not more than once during the financial year in the manner determined by the authorized body in the field of education.

The staffing levels of state preschool organizations, secondary, technical and vocational, and post-secondary education organizations are subject to posting on their Internet resources in compliance with the requirementslegislationRepublic of Kazakhstan on personal data and their protection, access to information.

5. Based on the results of the assessment of the conformity of educational activities with the requirements of the state compulsory standard of the corresponding level of education, the educational organization is recognized as having passed or not passed state certification.

In relation to educational organizations that have not passed state certification, preventive control is carried out with a visit to the subject (object) of control in accordance withEntrepreneurial CodeRepublic of Kazakhstan.

Article 56. State compulsory educational standards

1. In the Republic of Kazakhstan, state compulsory educational standards are established that define a set of general requirements for each level of education:

1) the content of education with a focus on learning outcomes;

2) the maximum volume of the academic workload of students and pupils;

3) the level of preparation of students;

4) the duration of training.

2. State mandatory standards for the corresponding levels of education are mandatory for all educational organizations, regardless of type and kind.

3. State compulsory education standards are developed taking into account inclusive education.

Article 57. Licensing of activities in the field of education

1. Educational activities of legal entities (hereinafter referred to as the licensee) are subject to licensing in accordance with this Law andlegislationRepublic of Kazakhstan on permits and notifications.

1-1. Branches of foreign organizations of higher and (or) postgraduate education and foreign educational institutions carry out educational activities in accordance withArticle 36-1of this Law.

2. Licensing of activities in the field of education of legal entities implementing educational programs of technical and vocational, post-secondary education is carried out in specialties included in the register of educational programs for military and special educational institutions by groups of specialties.

In the appendix to the license for educational activities:

for technical and vocational, post-secondary education, the code and name of the specialty are indicated in accordance with the classifier of specialties and qualifications of technical and vocational, post-secondary education;

for military and special educational institutions, the code and specialty group are indicated in accordance withclassifier of specialties and qualificationstechnical and vocational, post-secondary education.

Licensing of activities in the field of education of legal entities implementing educational programs of higher and (or) postgraduate education is carried out according to the areas of personnel training and forms of training.

In this case, the appendix to the license for engaging in educational activities shall indicate the code, the period of validity (with the exception of the appendix to the license issued before the entry into force of paragraph 3-1 of this article) and the name of the area of training of personnel in accordance withclassifierby areas of personnel training and form of training.

3. The licensor shall create a consultative and advisory body for the collegial and public consideration of issues of issuance, termination of a license and (or) an appendix to a license to engage in educational activities, as well as the renewal of a license and (or) an appendix to a license to engage in educational activities in the cases provided for in parts four, five and six of paragraph 3-1 of this article.

3-1. Licenses and/or supplements to a license to engage in educational activities are issued without limitation of their validity period to educational organizations implementing educational programs of primary, basic secondary, general secondary, technical and vocational, post-secondary education, as well as for the Academy of Justice, military, and special educational institutions.

Licenses and (or) supplements to a license for educational activities for higher and (or) postgraduate education organizations are issued with a validity period of five years.

Licenses and (or) annexes to the license for educational activities for organizations of additional education for children providing educational and health services to minors are issued for a period of five years.

The validity period of a license and (or) an annex to a license shall be calculated from the date of its issue.

The licensee shall submit an application for renewal of the license and (or) the appendix to the license no earlier than four months, but no later than thirty working days before the expiration of their validity period, with the following appendix:

1) documents providedparagraph 3 of Article 33Law of the Republic of Kazakhstan "On Permits and Notifications";

2) information and documents on compliance with the qualification requirements for educational activities.

The licensor, within twenty working days from the date of registration of the applicant’s documents:

1) considers an application for renewal of a license and (or) an appendix to a license of higher and (or) postgraduate education organizations, as well as organizations of additional education for children providing educational and health services to minors;

2) carries out permit control for compliance with the qualification requirements imposed on educational activities;

3) reissues the license and (or) the supplement to the license of higher and (or) postgraduate education organizations, organizations of additional education for children providing educational and health services to minors, or refuses to reissue them.

The licensor refuses to reissue the license and (or) the annex to the license to engage in educational activities on the following grounds:

1) failure to comply with the requirements of part five of this paragraph or improper execution of documents;

2) the applicant does not meet the qualification requirements for educational activities.

4. The validity of a license and (or) an appendix to a license to engage in educational activities is limited to the boundaries of the administrative-territorial unit at the place of registration of the licensee (according to the legal address), with the exception of a licensee carrying out educational activities through branches that have the status of international schools.

An appendix to the license is issued for each educational organization facility for the subtype(s) of activity for which the license has been or is being issued, indicating the actual address of the activity with the implementation of permit control.

4-1. Branches of non-profit organizations that have the status of international schools have the right to carry out educational activities subject to licensing, on the basis of a license and (or) an appendix to the license for educational activities issued to this non-profit organization.

5. The licensor has the right to suspend the license and (or) the annex to the license to engage in educational activities for a period of up to six months in the manner prescribedCodeRepublic of Kazakhstan on administrative offenses.

During the period of suspension of the license and (or) annex to the license to engage in educational activities, the licensee:

1) continues the educational process;

2) completes the academic year of study and receives an educational document;

3) eliminates violations that led to the suspension of the license and (or) the appendix to the license to engage in educational activities.

In the event of suspension of the license and (or) the annex to the license to engage in educational activities, the licensee does not have the right to:

1) participate in a competition for the placement of a state educational order;

2) carry out actions with the license and (or) the appendix to the license to engage in educational activities (termination, renewal, obtaining new appendices to the suspended license to engage in educational activities);

3) carry out admission to training, including through transfer and reinstatement from other educational organizations.

6. In the event of a reorganization of an educational organization by changing its type, its existing license and (or) appendix to the license to engage in educational activities are subject to re-issuance if the compliance of the educational organization newly created as a result of the reorganization with the qualification requirements imposed when licensing educational activities is confirmed.

In the event of a reorganization of educational organizations financed from budgetary funds, the licensor shall verify the compliance of the educational organization being reorganized with the qualification requirements imposed upon licensing of educational activities before the reorganization is carried out.

After the reorganization, the licensee submits an application for renewal of the license and (or) an appendix to the license to engage in educational activities, and the licensor issues a license and (or) an appendix to the license to engage in educational activities based on a check previously conducted by the licensor for compliance with the qualification requirements imposed when licensing educational activities.

To renew a license and (or) an annex to a license to engage in educational activities, the licensee submitsapplication form, approved by the authorized body in the field of education, an authorized body in the field of science and higher education, a document confirming payment of the license fee, as well as:

1) copies of documents containing information on the changes that served as the basis for reissuing the license and (or) the appendix to it;

2) information and documents on compliance with the qualification requirements imposed upon licensing of educational activities.

The licensor refuses to reissue a license and (or) an annex to a license to engage in educational activities on the grounds provided for in this paragraph, in the event of:

1) failure to submit or improper execution of documents specified in part four of this paragraph;

2) the applicant does not meet the qualification requirements imposed when licensing educational activities.

The license and (or) the appendix to the license for educational activities shall be reissued within thirty calendar days from the date of submission of the application with the relevant documents.

Until the renewal of the license and (or) the annex to the license for educational activities, the licensee carries out activities on the basis of the license subject to renewal.

Article 57-1. Notification of the commencement or termination of activities in the field of preschool education and training

1. The activities of an educational organization implementing general educational programs for preschool education and training are carried out in a notification procedure in accordance withlegislationRepublic of Kazakhstan on permits and notifications.

2. ReceptionnotificationsThe commencement or termination of activities in the field of preschool education and training is carried out by the authorized body in the field of education.

3. In the event of suspension of the activities of educational organizations implementing general educational programs for preschool education and training, educational organizations shall not have the right to:

1) participate in a competition for the placement of a state educational order;

2) carry out activities until the violations are eliminated and the activities of the territorial division of the authorized body in the field of education are resumed.

4. If violations identified as a result of inspection and/or state certification by educational organizations implementing general educational programs for preschool education and training are not corrected, the territorial division of the authorized body in the field of education shall exclude the educational organization from the state digital register of permits and notifications for preschool education and training and additional education for children.

Article 58. Excluded in accordance withBy lawRK dated 10.24.11 No. 487-IV

4. State control over the education authorities of a region, city of republican significance, capital, district (city of regional significance) (hereinafter referred to as control entities) is carried out by territorial divisions of the department of the authorized body in the field of education in the form of scheduled and unscheduled inspections.

5. The check is carried out by performing one of the following actions:

1) a visit to the subject of control by an official of the territorial division of the authorized body in the field of education;

2) requesting the necessary information concerning the subject of the inspection;

3) summoning the subject of control in order to obtain information on its compliance with the requirements established by the legislation of the Republic of Kazakhstan in the field of education.

6. The subject of the inspection is compliance by control entities with the requirements established in paragraphs 2 and 3 of this article.

7. A scheduled inspection of the subject of control shall be carried out once every three years on a set of issues of compliance with the requirements provided for in paragraphs 2 and 3 of this article.

An unscheduled inspection is carried out in relation to the subject of control on individual issues of compliance with the requirements provided for in paragraphs 2 and 3 of this article.

8. The basis for appointing a scheduled inspection of a subject of control is the annual list approved by the first head of the authorized body in the field of education before December 20 of the year preceding the year in which scheduled inspections are conducted.

The authorized body in the field of education sends a list of scheduled inspections to the territorial divisions of the authorized body in the field of education.

Territorial divisions of the authorized body in the field of education shall post a list of scheduled inspections on their Internet resources no later than December 25 of the year preceding the year in which the scheduled inspections are conducted.

Amendments and additions to the list of scheduled inspections are made in cases of liquidation or reorganization of the subject of control, as well as the occurrence of natural or man-made emergencies, the introduction of a state of emergency, the occurrence or threat of the spread of an epidemic, outbreaks of quarantine facilities and especially dangerous harmful organisms, infectious and parasitic diseases, poisoning, radiation accidents and related restrictions.

If the above cases occur, the scheduled inspection may be extended or suspended.

9. The grounds for an unscheduled inspection of a subject of control are:

1) an order from the first head of the authorized body in the field of education;

2) the prosecutor’s demand and the instructions of law enforcement agencies;

3) control over the implementation of the conclusion on the elimination of violations identified as a result of the inspection;

4) appeals from individuals and (or) legal entities regarding specific violations of the requirements of the legislation of the Republic of Kazakhstan in the field of education and appeals from state bodies;

5) violations by educational organizations subordinate to control entities of the requirements of the legislation of the Republic of Kazakhstan in the field of education, identified as a result of state control and monitoring;

6) publications and messages inmass mediaon violations of the legislation of the Republic of Kazakhstan in the field of education.

Unscheduled inspections are not carried out in cases of anonymous complaints.

10. The procedure for organizing and conducting inspections is determined by this Law.

11. When conducting inspections, the subject of control must be notified in advance of the appointment of the inspection at least 24 hours before the start of the inspection, indicating the date of its start.

12. The start of the inspection is considered to be the date of delivery to the subject of control of the act on the appointment of the inspection, indicating the terms and subject of the inspection.

The act on the appointment of an inspection shall indicate:

1) number and date of the act;

2) name of the government agency;

3) the last name, first name, patronymic (if indicated in the identity document) and position of the person(s) authorized to conduct the inspection;

4) information about specialists, consultants and experts involved in conducting the inspection;

5) name of the subject of control;

6) the type and subject of the appointed inspection;

7) the period of the inspection;

8) the grounds for conducting the inspection, including regulatory legal acts of the Republic of Kazakhstan, the mandatory requirements of which are subject to inspection;

9) the period of the inspection;

10) the rights and obligations of the subject of control, provided for in paragraphs 25 and 26 of this article;

11) signature of the head of the subject of control or his authorized person on receipt or refusal to receive the act;

12) signature of the person authorized to sign acts and the seal of the state body.

13. The timeframe for conducting the inspection is established taking into account the volume of upcoming work, as well as the tasks set, and must not exceed:

1) when conducting unscheduled inspections - five working days and with an extension of up to five working days;

2) when conducting scheduled inspections - ten working days and with an extension of up to ten working days.

If it is necessary to conduct a request to government agencies, as well as in connection with the significant scope of the audit, the period for conducting the audit may be extended only once by the head of the territorial division of the authorized body in the field of education for the periods specified in part one of this paragraph.

In the event of an extension of the inspection period, the territorial division of the authorized body in the field of education is required to draw up an additional act on the extension of the inspection period and notify the subject of control of this one working day before the extension of the inspection.

14. Inspections are carried out during the working hours of the control entity, as established by the work regulations of the control entity.

15. Based on the results of the inspection, an official of the territorial division of the authorized body in the field of education draws up a conclusion on the results of the inspection.

16. The conclusion on the inspection results shall indicate:

1) date, time and place of drawing up the conclusion;

2) name of the government agency;

3) the date and number of the inspection appointment report on the basis of which the inspection was carried out;

4) the last name, first name, patronymic (if indicated in the identity document) and position of the person who conducted the inspection;

5) name of the subject of control;

6) date, place and period of the inspection;

7) type and subject of inspection;

8) information on the results of the inspection, including the violations identified and their nature;

9) requirements to eliminate the identified violations, indicating the deadline for fulfilling the requirements and taking measures against persons who committed the violations;

10) information on familiarization or refusal to familiarize with the conclusion of the representative of the subject of control, as well as persons present during the inspection, their signatures or refusal to sign;

11) signature of the official who conducted the inspection.

17. Copies of documents related to the inspection results (if any) are attached to the conclusion on the inspection results.

18. The first copy of the conclusion on the results of the inspection with copies of the appendices is handed over on paper against signature or in electronic form to the subject of control (the manager or his authorized person) for familiarization and taking measures to eliminate the identified violations, the second copy in electronic form is submitted to the state body that carries out, within the limits of its competence, activities in the field of state legal statistics and special records, and its territorial bodies, the third copy remains with the territorial division of the department of the authorized body in the field of education.

19. If there are any comments and/or objections based on the results of the inspection, the head of the subject of control shall state them in writing.

Comments and/or objections are attached to the conclusion on the results of the inspection, and a corresponding note is made about this.

In the event of a refusal to accept the conclusion on the results of the inspection, a report is drawn up, which is signed by the officials conducting the inspection and the head of the subject of control or his authorized representative.

The subject of control has the right to refuse to sign the act, providing a written explanation of the reason for the refusal.

20. The subject of control over the violations specified in the conclusion on the inspection results, no later than three working days from the day following the day of its delivery, provides information on the measures that will be taken to eliminate the identified violations, indicating the deadlines that are agreed upon with the head of the territorial division of the authorized body in the field of education.

The timeframe for the execution of the conclusion on the results of the inspection shall be determined taking into account the circumstances that influence the actual possibility of its execution, but not less than ten calendar days from the date of delivery of the conclusion.

Upon expiration of the period for eliminating the identified violations specified in the conclusion on the inspection results, the subject of control, within the period established in this conclusion, is obliged to provide the territorial division of the authorized body in the field of education that conducted the inspection with information on the elimination of the identified violations.

To the information provided on the elimination of the identified violations, the control entity attaches (if necessary) materials proving the fact of the elimination of the violation.

In this case, conducting an unscheduled inspection in accordance with subparagraph 3) of part one of paragraph 9 of this article is not required.

If the subject of control fails to provide information on the implementation of the conclusion on the results of the inspection within the established time period, the territorial division of the authorized body in the field of education shall, within two working days, send the subject of control a request for the need to provide information on the implementation of the conclusion.

In the event of repeated failure to provide information on the implementation of the conclusion on the results of the inspection, the territorial division of the authorized body in the field of education has the right to appoint an unscheduled inspection in accordance with subparagraph 3) of part one of paragraph 9 of this article.

21. If there are no violations of the requirements established in paragraphs 2 and 3 of this article, when conducting an inspection, a corresponding entry is made in the report on the inspection results.

22. The end of the inspection period is considered to be the day when the inspection subject is given the conclusion on the inspection results no later than the end date of the inspection specified in the act on the appointment of the inspection or the additional act on the extension of the inspection period.

23. It is prohibited to conduct other types of inspections not established by this article.

24. When conducting an inspection, officials of the territorial division of the authorized body in the field of education do not have the right to:

1) verify compliance with requirements not established in paragraphs 2 and 3 of this article, as well as if such requirements do not fall within the competence of the territorial division of the authorized body in the field of education;

2) demand the provision of documents and information if they are not the subject of the inspection or do not relate to the subject of the inspection;

3) disclose and (or) disseminate information obtained as a result of an audit and constituting a commercial, tax or other secret protected by law, except in cases stipulated by the laws of the Republic of Kazakhstan;

4) exceed the established time limits for conducting the inspection;

5) carry out costly activities for the purposes of state control at the expense of the subjects of control.

25. Subjects of control have the right to:

1) do not allow officials of the territorial division of the authorized body in the field of education who have arrived to conduct an inspection at the facility to carry out an inspection in the following cases:

failure to comply with time intervals in relation to the previous inspection when scheduling a scheduled inspection;

exceeding or expiring the time limits specified in the act on setting the inspection time limits (additional act on extending the time limit, if any), which do not correspond to the time limits established by this article;

ordering inspections to be carried out by persons who do not have the appropriate authority to do so;

extension of the inspection period beyond the period established by this article;

absence of an act on the appointment of an inspection, official identification card;

2) do not provide information if it is not related to the subject of the inspection being conducted;

3) appeal the conclusion on the results of the inspection of the territorial division of the authorized body in the field of education in the manner established by the legislation of the Republic of Kazakhstan;

4) record the process of conducting an inspection, as well as individual actions of an official of the territorial division of the authorized body in the field of education, carried out by him within the framework of the inspection, using audio and video equipment, without creating obstacles to the activities of the official.

26. Subjects of control are obliged to:

1) ensure unimpeded access of officials of the territorial division of the authorized body in the field of education to the territory and premises of the facility being inspected;

2) appear when summoned by officials of the territorial division of the authorized body in the field of education in accordance with subparagraph 3) of paragraph 5 of this article;

3) provide information at the request of the territorial division of the authorized body in the field of education in accordance with subparagraph 2) of paragraph 5 of this article;

4) in compliance with the requirements for the protection of commercial, tax or other secrets, submit to officials of the territorial division of the authorized body in the field of education documents (information) on paper and electronic media or copies thereof for inclusion in the conclusion on the results of the inspection, as well as access to automated databases (digital systems) in accordance with the objectives and subject of the inspection;

5) make a note of receipt of the conclusion on the results of the inspection on the day of its completion;

6) not allow changes and additions to be made to the documents being inspected during the inspection period, unless otherwise provided by this Law or other laws of the Republic of Kazakhstan;

7) in the event of receipt of an act on the appointment of an inspection, ensure the presence of the head of the subject of control or his substitute person at the location of the object of control within the appointed time of the inspection.

27. Subjects of control have the right to appeal decisions, actions (inaction) of the territorial division of the authorized body in the field of education and their officials in the manner established by the legislation of the Republic of Kazakhstan.

Article 60. Rights and obligations of officials exercising state control

1. Officials exercising state control in the field of education must have the necessary qualifications and undergo appropriate training in the system of additional education at least once every five years.

2. Officials exercising state control in the field of education have the right to:

1) upon presentation of an official ID or identification card, freely visit educational organizations, institutions and enterprises for inspection purposes, and departmental educational organizations - taking into account the established regime for visiting them;

2) during the inspection, request any necessary information and review the original documents related to the subject of the inspection.

3. Officials exercising state control in the field of education are obliged to:

1) comply with the legislation of the Republic of Kazakhstan, the rights and legitimate interests of subjects of educational activities;

2) conduct inspections on the basis of and in strict accordance with the procedure established by this Law and other regulatory legal acts of the Republic of Kazakhstan;

3) not interfere with the established operating mode of the educational organization during the inspection;

4) to promptly and fully implement the powers granted in accordance with the laws of the Republic of Kazakhstan to prevent, identify and suppress violations of the requirements established by the legislation of the Republic of Kazakhstan in the field of education;

5) hand over to the educational organization a report on the results of the inspection on the day of its completion;

6) ensure the safety of the documents and information received as a result of the inspection.

4. Actions (inactions), decisions of officials exercising state control in the field of education, and the information that served as the basis for taking actions (making decisions) may be appealed by an interested party in the manner establishedlawsRepublic of Kazakhstan.

Chapter 9. Financial support for the education system

Article 61. System, principles and sources of financing

1. The education financing system is a combination of the republican and local budgets and other sources of income.

2. The education financing system is based on the following principles:

1) efficiency and effectiveness;

2) priority;

3) transparency;

4) responsibility;

5) delineation and independence of all budget levels.

3. The sources of funding for education are:

1) budgetary financing of the maintenance of state educational institutions;

2) budgetary financing of state educational orders;

3) income from the provision of paid services that do not contradict the legislation of the Republic of Kazakhstan;

4) loans from financial institutions;

4-1) budgetary funding of scholarship programs;

5) charitable assistance, gratuitous deductions and donations, grants, contributions from founders (participants) of educational organizations, funds from investment income of endowment funds (target capital).

The sources of funding for the state educational order for the training of personnel with higher and postgraduate education are funds from the republican and local budgets.

Article 62. State funding of educational organizations

1. The state ensures the allocation of budgetary funds for education, taking into account its priority.

2. Financing of state educational organizations is carried out at the expense of budgetary funds on the basis of the requirements established by state compulsory educational standards at different levels of education and the norms determined by the legislation of the Republic of Kazakhstan.

3. Financing of state educational institutions from budgetary funds ensures the maintenance and performance of the functions of institutions in accordance with state compulsory educational standards.

Financing of state educational institutions where the program is implementedper capita regulatory financing, is carried out in the amount determined by the methodology of per capita standard financing and other expenses provided for by the legislation of the Republic of Kazakhstan.

4. Financing of state educational enterprises and educational organizations of other organizational and legal forms is carried out on the basis of the state educational order.

The volume of state educational orders for state educational enterprises is determined in accordance withmethodologyper capita standard financing and other expenses stipulated by the legislation of the Republic of Kazakhstan, with the exception ofAcademies of justice, medical, military, special educational institutions, educational organizations in the field of culture, as well as republican organizations of secondary education, the amount of funding for which is determined by the authorized body of the relevant industry independently.

List of servicesrelated to the state educational order, is approved by the authorized body in the field of education, an authorized body in the field of science and higher education.

Revenues from the sale of services provided within the framework of the state educational order, remaining as a result of the financial and economic activities of educational organizations for the current financial year, are used by them in the next financial year.

4-1. Excluded in accordance withBy lawRK dated 04.07.18 No. 171-VI

4-2. Local executive bodies place state educational orders for secondary education in state educational organizations.

4-3. The placement of state educational orders for secondary education in private educational organizations is entrusted to the operator of the authorized body in the field of education.

4-4. Local executive bodies of regions, cities of republican significance, and the capital place state educational orders for additional education of children within the limits of budgetary funds approved in local budgets for the relevant financial year.

5. State educational order for trainingpersonnel, advanced training and retraining of qualified workers and specialists should include:

1) areas of trainingpersonnel;

2) the volume of state educational orders by forms of education (number of places, grants);

3) the average cost of training expensesone student (specialist).

When placingstate educational order for trainingFor personnel with technical and vocational, post-secondary, higher or postgraduate education in state educational institutions, the administrator of the budget program and the name of the educational organization are indicated.

The state educational order also includes trainingpersonnel in educational institutions and (or) their branches created in the manner prescribed by this Law, as well as the training of foreigners and stateless persons in the preparatory departments of higher and (or) postgraduate education organizations.

5-1. Financing of training of personnel with higher or postgraduate education on the basis of an educational grant or state educational order is carried out in educational organizations that have been accredited by accreditation bodies included in the register of recognized accreditation bodies, with the exception ofAcademies of justice, military, special educational institutions.

The state educational order for the training of personnel with technical and vocational, post-secondary education is placed in educational organizations in the manner determined by the authorized body in the field of education, with the exception of military and special educational institutions.

6. State educational orders in educational organizations implementing general educational programs for preschool education and training, with the exception of secondary educational organizations implementing general educational programs for preschool education and training in preschool classes, are placed in the manner determined by the authorized body in the field of education.

6-1. The state educational order placed in secondary education organizations must contain the number of students and the average cost of expenses per student.

6-2. The state educational order for additional education of children must contain the number of students and (or) pupils and the average cost of expenses per student and (or) pupil.

6-3. The state educational order for special psychological and pedagogical support for children with disabilities must contain the number of students and (or) pupils and the average cost of expenses per student and (or) pupil.

7.Requirements for the content of the state educational order for educational and methodological support of the education system are determined by the authorized body in the field of education and (or) the authorized body in the field of science and higher education.

8. State educational orders for financing higher or postgraduate education with the award of a bachelor's or master's degree are placed in the form of educational grants in a differentiated manner depending on the educational programs, type and status of the organization of higher and/or postgraduate education.

9. Financing of the education of foreigners, including persons of Kazakh nationality who are not citizens of the Republic of Kazakhstan, under scholarship programs in Kazakhstani organizations of higher and (or) postgraduate education is carried out by allocating budgetary funds for the relevant period of study.

Article 63. Provision of goods (works, services) by educational organizations on a paid basis

1. Educational services provided by educational organizations to students and pupils at the expense of budgetary funds are provided free of charge.

2. State educational institutions and secondary educational organizations in the organizational and legal form of state enterprises on the right of economic management are prohibited from:

1) provide students and pupils with educational services on a paid basis within the framework of the state compulsory education standard;
